

PC HOUSE CALLS

We Bring the Service to you!

October 13, 2019

Dear Clients,

As some of you already know I am undergoing chemotherapy for cancer. This has put a strain on my time, and I haven't been able to take care of everyone in a timely manner. To help alleviate this problem I am making some changes to PC House Calls.

For starters I have a new partner, Alan Deras. He is going to be helping me out by returning phone calls and taking care of clients. So, when he calls, please know that he is very skilled. He has 15+ years of experience in IT - the first year of which he worked for me, so I did his initial training. I have every confidence in his abilities and his trust worthiness.

For those of you that want to keep me as your primary IT specialist you will need to sign up as soon as possible for my maintenance plan. This way I can do much of the upkeep on your computers remotely. This will help free up time, so I am able to take care of you better. To make sure I can take care of those clients that value me the most I am limiting the number of computers on this system. Please call or text me ASAP to be added to my system. I am sure it will fill up quickly.

All the best.

Daniel G Peterson
